## Housekeepers Cannot Afford to Pay the Big Advance.

The Cattle Kings Don't Care If They Make Money.

Indignation over the outrageously high prices for meats, confined a week ago to housewives, is rapidly spreading in all directions. Small dealers in meats are angry at the combine. With steaks ranging from 20 to 28 cents a pound, rib reasts at 20, and other portions of beef at proportionately high prices, there are thousands of families in the metropoils who are compelled to forego beef it any form. M. Stanfield is indebted to the Paran Stevens estate to the extent of \$17.60 for rent of the Victoria Hotel property, and the object of the trustees of the Stevens estate is to prevent the assets of the Stanfield estate from being applied to the payment of the debts of young Douglas Stanfield.

Douglas Stanfield is a grandson of Mark M. Stanfield, and inherited a large share of his estate. Mark M. Stanfield slee left a trust fund of \$60.00 for several beneficiaries. Both the trust fund and the inheritance of Douglas Stanfield are claimed to be assets of Mark M. Stanfield's estate, and as such subject to the claim of the Paran Stevens estate.

Judge Beach said he would not interfere with the payment of the income of the trusts to the beneficiaries, but the proceeds held by the assignee, subject to the order of the court.

in which to prepare his papers.

The plaintiff was also granted a stay Just What This May Mean To Every One of Us.

> Such Startling Words Bring the Truth Home to Us.

When Prince Bismack, Germany's great leader said: "The world is not ruled by parliament and political meetings, but by blood and iron," he uttered a truth, the extent of which few comprehend. The world is ruled by race-race i Individual force and power. It vitalizes or ener-vates the physical and mental strength. W-speak of blooded stock in the animal kingdom it will apply with equal force to the human race. When Greece was full of vital energy, when she rultivated her physical health she became mis-ress of the world, and her great Alexander wept for other worlds to conquer; but when she became effeminate a borde of barbarians overran and destroyed her, leaving behind them a path of mournful ruins. In tainted blood, impure and weak, was written that nation's sad epitaph. So as individuals, to take this important lesson to as individuals, to take this important leason to ourselves. Be well and keep so; mend up the waste places; strengthen the nerves and purify the blood. Then, long life is assured; good work in the world will come, and you will know the bleesings of sound body and happy mind. Nothing has yet been discovered to accomplish this like Dr. Greene's Nervura blood and nerve

emedy. The Great Bismarck did no more for German. The Great Bismarck did no more for Germany in discovering her elements of unity and enforcing them than has this distinguished specialist done for mankind in discovering his wonderful remedy for all blood aliments and nerve weakness, giving health and strength and happiness to all who will take it and be cured of their suffering. Do not fall to improve this fortunate opportunity. Don't delay, for now, in the spring, is the time to get good blood and strong nerves by this best of all spring medicines. Take Dr. Greene's Nervura blood and nerve remedy and you can be well and strong, strong remedy and you can be well and strong, strong to conquer what end you undertake in life. Mr. F. A. Arnold, of Woodsville, N. H., says

Three mouths ago I was in a very de tinually. My kidneys bothered me considerabl up work. I heard of Dr. Greene's Nervura ble and nerve remedy and its wonderful results upon others, and I determined to try it. "I had no faith in the virtues of the remedy

when I began its use, but now I am rejoiced to say that I cannot help having faith, for it completely oured me and I work with comfort every day.

"My business is railroading, which I could not now do if it had not been for Dr. Greene's Nervura blood and nerve remedy, and I gladly recomvers to the state of the sta mend it to all."

Why waste time in trying uncertain and un tried remedies when here is a physician's precription, a discovery made by the greatest liv ing specialist in curing nervous and chronic dis-cases, Dr. Greene, of 35 West 14thst., New York City? If you take this medicine you can consider yourself under Dr. Greene's direct profession

Dr. Donlin found the stomach and bowels of the infant inflamed. He decided that death had been caused by a dose of "Ol Pini" administered by mistake. "Ol. Pini" is a turpentine composed chiefly of hemiock oil.

Dr. Jarecky, who wrote the prescription, attended the autopsy. He blamed Druggist Jacob Berenson. He says he wrote on the prescription "for a baby," and the durggist should have known better than to give "Ol Pini" for a babe.

The druggist insists the mistake was due to Dr. Jarecky writing his Latin ineligibly.

## ALL AFTER THE \$50,000.

Justice Stover, in the Supreme Court, plicated case, to which fourteen nieces knew it to be lower in price at sisters, a trustee and several executors at 15, cutlets at 25 and loins of veal at ants to the \$50,000 estate of William G.

Weston, as trustee of the Breeze estate. reached in beef prices, but he discredits the idea that the "big four" in Chicago have "cornered" the market.

Michael Guerin, of 206 Washington street, said gloomly:

"If the present high prices continue much longer, many restaurant men must so down. Several have already been forced to close up. Why, loins and ribs of beef that I used to buy for 8 1-2 cents, I now have to pay 16 cents for, and I loss money on every steak served to my customers. They say prices are going higher, too."

Charles Popper, of 123 East Seventy-night street, who is interested in Colorado cattle ranches, says:

"We are now was interested in Colorado cattle ranches, says:

"We are now paying more for beef than in twenty years, first, because there is a scarcity of cattle due to the short corn crop, and secondly, and, more principally, because the "big four" packing-houses of Chicago, taking advantage of this scarcity, have cornered the market. The searchy resulting from the short corn crop was made apparent by the withdrawal of many ranchmen from cattle raising, which had been made unprofitable by the combination of the big packing-houses against them in buying. Thus they made their power felt both ways.

"They fixed an arbitrary price to the against Cornelia P. Goodrich, Sarah L.
